

KYT & Safety Training

Proactive activity to reduce potential for unsafe practice and by default reduce accidents by training all employees to be proactive and look for potential for accidents.

Aimed at
Everyone.

How
By using team meetings and briefing sessions to change the mindset of the workforce to react to potential safety concerns and countermeasure at the thought stage rather than wait for the accident or near miss.

Outputs
Lower litigation costs.
Increased motivation from workforce.
Proactive safety management.

Benefits
Increased employee availability.
Lower absence rates.
Lower company insurance costs.
Safer working environment.
